People in Manufacturing use tools to transform raw materials into products for use or sale. Much of the work is done in factories, where huge quantities of materials are turned into large amounts of goods. Manufacturing includes assembly line, maintenance, engineering and industrial design jobs.

do you like

- working with your hands?
- participating in group projects?
- figuring out how things work?
- using tools?
- tinkering with toys, machines or vehicles?

Occupation Examples

Environmental Engineers

are you

- curious?
- practical?
- mechanical?
- 🔲 systematic?
- good at following instructions?
