

# People in transportation, distribution & logistics

make sure products, materials and people get from one place to another. Some transport people and things by air, rail, water and road. Some plan the routes and amount of space needed to move cargo and people. Others inspect, repair and maintain systems.

## do you like

- traveling?
- learning about airplanes or trucks?
- using tools or machines?
- solving brain teasers
- reading maps?

## are you

- mechanical?
- responsible?
- organized?
- detail-oriented?
