## Annual Report of South Dakota

# Job Placement Outcomes

for Graduates of Public Postsecondary Education Institutions

### 2019 Annual Report of South Dakota Job Placement Outcomes for Graduates of Public Postsecondary Education Institutions Submitted November 2019

#### **Summary**

Per SDCL 13-1-63 and 13-1-64, this annual report is submitted to the Executive Board of the Legislative Research Council to provide annual job placement outcomes for graduates of postsecondary education institutions. The South Dakota Department of Labor and Regulation (DLR) is the agency responsible for providing the annual report.

As noted by the Data Quality Campaign (<a href="www.dataqualitycampaign.org">www.dataqualitycampaign.org</a>), publicly reporting timely, actionable, and comprehensible education data is one of the most powerful ways states can promote transparency, strengthen accountability, and ensure everyone with a stake in education has access to the information they need to make informed career decisions.

#### **Workforce Data Quality Initiative**

This report provides data from the South Dakota Postsecondary Graduate Employment and Wage Outcomes database, originally known as the Workforce Data Quality Initiative (WDQI) longitudinal database. DLR's Labor Market Information Center (LMIC) received a \$946,000 grant from a 2012 WDQI federal grant solicitation to build this longitudinal system. Since the ending of the WDQI grant, LMIC funds available through the U.S. Employment and Training Administration's Workforce Information Grant have been used to continue supporting Graduate Employment Wage Outcomes projects.

The post-secondary graduate outcomes database matches reemployment assistance wage data with postsecondary program completers to develop average wage outcomes, which are analyzed to determine the effectiveness of postsecondary workforce and educational programs. This data match is also an essential step in creating the most effective workforce development strategies.

Information from the database also provides students, job seekers, career counselors, educators and policy makers with a better understanding about the connections between postsecondary education choices and employment outcomes.

Providing this information is possible through a joint collaboration between the DLR, Board of Regents and Department of Education. Additional labor market information, employment projections, wage information and career resources are available at <a href="http://www.sdjobs.org/lmic/">http://www.sdjobs.org/lmic/</a>.

#### **Definitions**

**Classification of Instructional Programs (CIP) Code and Description:** The Classification of Instructional Programs (CIP) is a universal classification system provided by the U.S. Department of Education. CIP codes are published at the six-digit level in the report.

#### Degrees:

AA - Associate of Arts

AAS – Associate of Applied Science

AS -Associate of Science

AUD – Doctorate of Audiology

BA – Bachelor of Arts

BATS – Bachelor of Applied Technical Science

BBA - Bachelor of Business Administration

BFA – Bachelor of Fine Arts

BGS – Bachelor of General Studies

BLS – Bachelor of Liberal Studies

BM – Bachelor of Music

BMA – Master of Business Administration

BME - Bachelor of Music Education

BS – Bachelor of Science

BSED - Bachelor of Science in Education

BSN - Bachelor of Science in Nursing

BSR - Bachelor of Science in Recreation

DIP - Diploma

DNP – Doctorate of Nursing Practice

DPT – Doctorate of Physical Therapy

DSC – Doctorate of Science

EDD – Doctorate of Education

EDS – Educational Specialist

EMPA – Executive Master of Public Policy and

Administration

JD – Juris Doctorate

MA – Master of Arts

MARCH – Master of Architecture

MBA – Master of Business Administration

MD – Doctorate of Medicine

MED - Master of Education

MFA – Master of Fine Arts

MM – Master of Management

MMC – Master of Mass Communications

MPA – Master of Public Administration

MPACC – Master of Professional Accounting

MS – Master of Science

MSED – Master of Science Education

MSW – Master of Social Work

PHD – Doctorate of Philosophy

PHRMD – Doctorate of Pharmacy

TDTP – Transitional Doctorate of Physical Therapy

**Graduation Fiscal Year:** The fiscal year (July through June) for which the graduate outcomes data is presented. This report includes data on graduation fiscal year 2017 (July 1, 2016 through June 30, 2017).

**Number of Graduates:** Count of individuals who graduated in the given graduation fiscal year (July through June). Information is provided by the degrees awarded. The number of graduates is indicated as NA if there were fewer than five graduates. The report includes data for graduates in fiscal year 2017.

**Number of Graduates Earning Wages in South Dakota:** Number of graduates who were reported as wage earners in 2018 by South Dakota employers to the South Dakota Department of Labor and Regulation in quarterly reports to the Reemployment Assistance (RA) program. The number of graduates earning wages in South Dakota is displayed as NA if it is fewer than five individuals.

Number of Jobs Held by Graduates Earning Wages in South Dakota: Total number of jobs held by those graduates in the "Number of Graduates Earning Wages in South Dakota" column. This number includes all jobs held by the graduates reported as wage earners in 2018 by South Dakota employers to the South Dakota Department of Labor and Regulation in quarterly reports to the Reemployment Assistance (RA) program. (Graduates holding more than one job are counted for each job.)

Average Annual Wage: Wage data is displayed in the report for the year 2018. The aggregate wage data includes a minimum of three quarters of actual wage data per graduate in a calendar year. The report does not include wages for the self-employed or for employment in businesses that are not covered by reemployment assistance in South Dakota. The wage data may include graduates who are reported as wage earners by more than one employer (graduates who hold more than one job).

The Average Annual Wage represents the arithmetic mean of the wage data collected for the number graduates earnings wages in South Dakota in 2018, calculated by dividing the total wages for graduates earning wages in South Dakota by the number of graduate wage earners, within a CIP code. The average wage is also referred to as the mean wage. The average wage may include the wages of graduates who are reported as wage earners by more than one employer (graduates who hold more than one job). In this case, total wages for all jobs are divided by the number of graduates holding jobs.

**NA:** Data not available due to protecting confidentiality of individuals; no graduates were reported for the particular program in the given year; or none of the graduates reported met the criteria as being wage earners in South Dakota.

#### **Purpose**

Information available from the South Dakota Postsecondary Graduate Employment and Wage Outcomes database provides students, job seekers, career counselors, educators and policy makers with a better understanding about the connections between postsecondary education choices and employment outcomes.

This information can help answer questions users might have, including:

- What percent of graduates are employed in South Dakota?
- How much are those graduates earning in South Dakota?
- In what industries are graduates employed in South Dakota?

#### **Data Sources and Methodology**

Workforce and education data were made available through a joint collaboration of the following state agencies:

- Department of Labor and Regulation (DLR) workforce data
- Board of Regents (BOR) state university system
- Department of Education (DOE) state technical institutes

Social Security numbers for students enrolled in public postsecondary institutions were followed through the education system into the workforce longitudinally using South Dakota Reemployment Assistance (RA) wage records.

Graduate outcome results are aggregated and are published only if there are five or more graduates within a postsecondary education program with valid wage records. Reports will reflect new graduates after completion of the graduation year (using a July through June year).

#### **Data Limitations**

- A degree or award has a value beyond employment and earnings. Personal interest and satisfaction resulting from completion of a program are intangible benefits that cannot be measured through this tool's data.
- The job market varies across the state and over time. Past outcomes cannot predict the market success of future graduates in all locations.
- Graduate numbers reflect degrees awarded, resulting in duplication of graduates from a macro level. (A graduate with a double major who received two degrees is counted as a graduate for each major.)
- Outcomes represent only the graduates who are reported as wage earners by South Dakota employers in quarterly reports submitted to
  the Reemployment Assistance program. Although about 95 percent of South Dakota workers are covered by Reemployment Assistance's
  unemployment insurance, people who are employed by federal agencies, the self-employed and those employed in other states are
  excluded.
- Wage and industry employment outcomes may include data on graduates who are earning wages from multiple jobs.
- Wage and industry employment outcomes may include data on graduates who re-enrolled in school after completing a degree, if they
  met the wage earning criteria (having been reported as a wage earner for a minimum of three quarters in a calendar year).
- Since the quarterly employment and wage reports submitted to the Reemployment Assistance program by South Dakota employers do not identify the number of hours employees work, average and median wage estimates may reflect the earnings of both full- and part-time workers.
- Work outcomes for programs with few graduates can fluctuate significantly over time.
- The data cannot be used to evaluate the overall return on investment of postsecondary education compared to no postsecondary education, because South Dakota does not have the ability to link high school graduate records to workforce records. Additionally, the wage records do not include the value of such factors as employee benefits, working conditions, etc.
