

2022

Annual Report of South Dakota

Job Placement Outcomes

for Graduates of Public
Postsecondary Education Institutions

2022 Annual Report of South Dakota Job Placement Outcomes for Graduates of Public Postsecondary Education Institutions *Submitted November 2022*

Summary

Per SDCL 13-1-63 and 13-1-64, this annual report is submitted to the Executive Board of the Legislative Research Council to provide annual job placement outcomes for graduates of postsecondary education institutions. The South Dakota Department of Labor and Regulation (DLR) is the agency responsible for providing the annual report.

As noted by the Data Quality Campaign (www.dataqualitycampaign.org), publicly reporting timely, actionable, and comprehensible education data is one of the most powerful ways states can promote transparency, strengthen accountability, and ensure everyone with a stake in education has access to the information they need to make informed career decisions.

The historical, longitudinal data warehouse which makes possible the data in this annual report was originally known as the Workforce Data Quality Initiative (WDQI) database. DLR's Labor Market Information Center (LMIC) received a \$946,000 grant from a 2012 WDQI federal grant solicitation to build the longitudinal data framework. Since the ending of the WDQI grant, LMIC funds available through the U.S. Employment and Training Administration's Workforce Information Grant have been used to continue supporting postsecondary graduate employment and wage outcomes projects.

Data provided by public postsecondary education institutions on their graduates are matched to DLR Reemployment Assistance employment and wage records (as reported by South Dakota employers). The resulting employment and wage outcomes data can be analyzed to determine the effectiveness of postsecondary workforce and educational programs. This data match is also an essential step in creating the most effective workforce development strategies.

The graduate outcomes data also provides students, job seekers, career counselors, educators and policy makers with a better understanding about the connections between postsecondary education choices and employment outcomes.

Providing this information is possible through a joint collaboration between the DLR, Board of Regents and Department of Education. Additional labor market information, employment projections, wage information and career resources are available at <http://dlr.sd.gov/lmic/>.

Definitions

Classification of Instructional Programs (CIP) Code and Description: The Classification of Instructional Programs (CIP) is a universal classification system provided by the U.S. Department of Education. CIP codes are published at the six-digit level in the report.

Degrees:

AA - Associate of Arts	EDS – Educational Specialist
AAS – Associate of Applied Science	EMPA – Executive Master of Public Policy and Administration
AS –Associate of Science	JD – Juris Doctorate
AUD – Doctorate of Audiology	MA – Master of Arts
BA – Bachelor of Arts	MARCH – Master of Architecture
BATS – Bachelor of Applied Technical Science	MBA – Master of Business Administration
BBA – Bachelor of Business Administration	MD – Doctorate of Medicine
BFA – Bachelor of Fine Arts	MED – Master of Education
BGS – Bachelor of General Studies	MENG – Master of Engineering
BLA – Bachelor of Landscape Architecture	MFA – Master of Fine Arts
BLS – Bachelor of Liberal Studies	MM – Master of Management
BM – Bachelor of Music	MMC – Master of Mass Communications
BMA – Master of Business Administration	MME – Master of Music Education
BME – Bachelor of Music Education	MPA – Master of Public Administration
BS – Bachelor of Science	MPACC – Master of Professional Accounting
BSED – Bachelor of Science in Education	MPH – Master of Public Health
BSN – Bachelor of Science in Nursing	MS – Master of Science
BSR – Bachelor of Science in Recreation	MSED – Master of Science Education
CER - Certificate	MSW – Master of Social Work
DIP – Diploma	OTD – Occupational Therapy Doctorate
DNP – Doctorate of Nursing Practice	PHD – Doctorate of Philosophy
DPT – Doctorate of Physical Therapy	PHRMD – Doctorate of Pharmacy
DSC – Doctorate of Science	TDTP – Transitional Doctorate of Physical Therapy
EDD – Doctorate of Education	

Graduation Fiscal Year: The fiscal year (July through June) for which the graduate outcomes data is presented. This report includes data on graduation fiscal year 2020 (July 1, 2019 through June 30, 2020).

Number of Graduates: Count of individuals who graduated in the given graduation fiscal year (July through June). Information is provided by the degrees awarded. The number of graduates is indicated as N/A if there were fewer than five graduates. The report includes data for graduates in fiscal year 2020.

Number of Graduates Earning Wages in South Dakota: Number of graduates who were reported as wage earners in 2021 by South Dakota employers to the South Dakota Department of Labor and Regulation in quarterly reports to the Reemployment Assistance (RA) program. The number of graduates earning wages in South Dakota is displayed as N/A if it is fewer than five individuals.

Number of Jobs Held by Graduates Earning Wages in South Dakota: Total number of jobs held by those graduates in the "Number of Graduates Earning Wages in South Dakota" column. This number includes all jobs held by the graduates reported as wage earners in 2021 by South Dakota employers to the South Dakota Department of Labor and Regulation in quarterly reports to the Reemployment Assistance (RA) program. (Graduates holding more than one job are counted for each job.)

Average Annual Wage: Wage data is displayed in the report for the year 2021. The aggregate wage data includes a minimum of three quarters of actual wage data per graduate in a calendar year. The report does not include wages for the self-employed or for employment in businesses that are not covered by reemployment assistance in South Dakota. The wage data may include graduates who are reported as wage earners by more than one employer (graduates who hold more than one job).

The Average Annual Wage represents the arithmetic mean of the wage data collected for the number graduates earnings wages in South Dakota in 2021, calculated by dividing the total wages for graduates earning wages in South Dakota by the number of graduate wage earners, within a CIP code. The average wage is also referred to as the mean wage. The average wage may include the wages of graduates who are reported as wage earners by more than one employer (graduates who hold more than one job). In this case, total wages for all jobs are divided by the number of graduates holding jobs.

N/A: Data not available due to protecting confidentiality of individuals; no graduates were reported for the particular program in the given year; or none of the graduates reported met the criteria as being wage earners in South Dakota.

Purpose

The South Dakota postsecondary graduate employment and wage outcomes data provides students, job seekers, career counselors, educators and policy makers with a better understanding about the connections between postsecondary education choices and employment outcomes.

This information can help answer questions users might have, including:

- What percent of graduates are employed in South Dakota?
- How much are those graduates earning in South Dakota?
- In what industries are graduates employed in South Dakota?

Data Sources and Methodology

Workforce and education data were made available through a joint collaboration of the following state agencies:

- Department of Labor and Regulation (DLR) - workforce data
- Board of Regents (BOR) - state university system
- Department of Education (DOE) - state technical colleges

Social Security numbers for students enrolled in public postsecondary institutions were followed through the education system into the workforce longitudinally using South Dakota Reemployment Assistance (RA) wage records.

Graduate outcome results are aggregated and are published only if there are five or more graduates within a postsecondary education program with valid wage records. Reports will reflect new graduates after completion of the graduation year (using a July through June year).

Data Limitations

- A degree or award has a value beyond employment and earnings. Personal interest and satisfaction resulting from completion of a program are intangible benefits that cannot be measured through this tool's data.
- The job market varies across the state and over time. Past outcomes cannot predict the market success of future graduates in all locations.
- Graduate numbers reflect degrees awarded, resulting in duplication of graduates from a macro level. (A graduate with a double major who received two degrees is counted as a graduate for each major.)
- Outcomes represent only the graduates who are reported as wage earners by South Dakota employers in quarterly reports submitted to the Reemployment Assistance program. Although about 95 percent of South Dakota workers are covered by Reemployment Assistance's unemployment insurance, people who are employed by federal agencies, the self-employed and those employed in other states are excluded.
- Wage and industry employment outcomes may include data on graduates who are earning wages from multiple jobs.
- Wage and industry employment outcomes may include data on graduates who re-enrolled in school after completing a degree, if they met the wage earning criteria (having been reported as a wage earner for a minimum of three quarters in a calendar year).
- Since the quarterly employment and wage reports submitted to the Reemployment Assistance program by South Dakota employers do not identify the number of hours employees work, average and median wage estimates may reflect the earnings of both full- and part-time workers.
- Work outcomes for programs with few graduates can fluctuate significantly over time.
- The data cannot be used to evaluate the overall return on investment of postsecondary education compared to no postsecondary education, because South Dakota does not have the ability to link high school graduate records to workforce records. Additionally, the wage records do not include the value of such factors as employee benefits, working conditions, etc.
