Sanner made a motion to move Agenda Item F after Agenda Item I. Bates seconded the motion.
MOTION PASSED.

Bates motioned to approve the agenda. Pettigrew seconded the motion. **MOTION PASSED.**

Bates made a motion to approve the September 30, 2024, meeting minutes. Sanner seconded the motion. **MOTION PASSED**

Sanner reported that the cash center balance was \$160,539.46.

Evins shared bill draft 196 with the Commission. The bill would raise the statutory maximums for licensing fees promulgated in Administrative Rule. The bill would also make minor style and form changes that were requested by the Legislative Research Council (LRC). A copy of the bill draft can be found in the meeting packet.

Pettigrew made a motion to pass a resolution in support of the Commission moving forward with the bill. Sanner seconded the motion. **MOTION PASSED.**

Sanner clarified the equipment and procedures that are allowed in medical spas, under the current scopes of practice for cosmetology and esthetics.

The Commission discussed the need for rules regarding the tools allowed and the training required for dermaplaning. The Commission's standing committee will work on a proposal to present to the Commission at its next meeting.

During the public comment period, the following comments were made:

Anna (last name unknown) stated she completed dermaplaning training prior to offering this service and supports adding a requirement for additional education to perform dermaplaning in South Dakota.

Wendy Beaumont agreed that additional, hands-on training should be required to offer dermaplaning services. Beaumont recommended that the Commission only accept hands-on, in-person training.

Fallon Helm asked that the Commission provide clarification at a future meeting concerning the tools that would be allowed and training requirements that would be implemented, should the Commission promulgate a new rule to regulate dermaplaning.

Sherri Katzenbach shared that her team was corporately trained for dermaplaning and that certificates of completion are not available. She asked if and how this training would be 'grandfathered'. Responses to questions are not provided during the public comment portion of meetings.

The Commission reviewed its student enrollment policy for applicants who owe a balance to a former school.

Pettigrew made a motion to repeal the current student enrollment policy, and to direct the Commission office to review applications solely based on the applicant's eligibility for student licensure. Sanner seconded the motion. **MOTION CARRIED.**

Sanner made a motion to adjourn the meeting. Pettigrew seconded the motion. **MOTION CARRIED.**

The meeting adjourned at 2:42 p.m. CST.
