

1. **Enclosed Industrial Control Panel and Machinery listed by NRTL:** General Inspection for installation. Green Sticker
2. **Enclosed Industrial Control Panel listed by NRTL and Machinery labeled by third party inspection agency or other third-party organization:** General Inspection for Installation. Green Sticker. Third party:
 - a. Adheres label indicating the installation complies with nationally recognized standards or tests determining suitable usage for said installation in manner utilized.
3. **Enclosed Industrial Control Panel listed by NRTL and no third party involved to label:** Inspection more in depth to analyze motor, machinery and wire size. Owner documents acceptance of installation. Green Sticker Owner statement:
 - a. Entity is of the opinion the machinery complies with NEC 670.
 - b. Entity accepts responsibility and liability for the machinery.
 - c. Entity is of the opinion the machinery is safe for the use intended.
4. **No listing on installation:** Apply for industrial machinery designation per 20:44:22:05.
 - a. Commission approves authorization as designated machinery. Green Sticker.
Requirements:
 - No standard has been prepared or adopted
 - Owners states machinery is safe for intended use
 - The machinery is specific electrical equipment for use by the applying entity and not a line as manufactured, stored, sold, installed, or attached
 - Comply with Article 670
 1. Nameplate
 2. Provide proof of compliance with NFPA 79 by licensed professional. (stamped plans by a PE in an electrical discipline)
 - b. Commission denies authorization as designated machinery. Field listing or labeling or other assurances by a licensed engineer. Green Sticker.
Requirements:
 - Label or identification adhered
 - Owner states machinery is safe for intended use
 - Comply with Article 670
 1. Nameplate
 2. Provide proof of compliance with NFPA 79 by licensed professional. (stamped plans by a PE in an electrical discipline)

[Machinery Designation Application](#)

Notes:

1. All options require compliance with NEC Article 670.
2. Label Indicates: Installation complies with nationally recognized standards or tests determining suitable usage for said installation in manner utilized.

20:44:22:02. Electrical equipment to comply with rules. A person or the person's agent or employee may not sell, offer for sale, or expose for sale any electrical equipment designed for attachment to or installation in or on any electrical circuit or system for light, heat, or power which does not comply with this article.

20:44:22:03. Electrical equipment to conform to approved purposes and show identification. Only the electrical equipment approved in accordance with § 20:44:22:04 for the purpose intended may be installed to use electricity for light, heat, or power. This includes all materials used to install such electrical equipment. The manufacturer's name, trademark, or other identification symbol must be placed on or provided with the electrical equipment, together with the rated voltage, current, wattage, or other applicable ratings necessary to determine the purpose and use for which they are intended.

20:44:22:04. State electrical inspector authorized to enforce rules and specifications. The state electrical inspector shall enforce all rules and specifications in this article as necessary to determine conformity of electrical equipment with approved methods of construction in order to protect life and property. The label of a nationally recognized electrical testing laboratory, inspection agency, or other organization concerned with product evaluation that maintains periodic inspection during production of equipment or materials, whose label indicates compliance with nationally recognized standards or tests to determine suitable usage in a specified manner, is prima facie evidence that such electrical equipment is in conformity and listed for installation under the provisions of this article.

20:44:22:05. Special approval of state electrical inspector. The state electrical inspector may grant special approval of electrical equipment as machinery if no standard has been prepared or adopted to which they should conform. Special approval applies only to the specific electrical equipment approved and not to the line as manufactured, stored, sold, installed, or attached and may be granted only for electrical equipment as designated by the owner as machinery which, in the opinion of the owner, is safe for the use intended. All special approvals must first be authorized by the commission.

The state or any of its political subdivisions does not assume any liability for damage or injury to persons or property because of the use of such electrical equipment designated as machinery.
