## INSPECTORS MEETING

Governor's Inn - Pierre SD

Wednesday/Thursday November 8-9, 2017

8:00 A.M. CST

### Agenda

Call the Meeting to Order

Attendees: Brent Schoulte, Stan Rogers, Chuck Thompson, Ron Lunder, Jason Wingert, Dan Larson, Tony Rath, Bob Jaskulka, Scott Ochsner, Dan Schoenfelder, Aaron Dimitt, Jeff Hotchkiss, Curt Mitchell, Tim Heairet, Doug Brende, Tom Kelly, Denis Drake, Larry Kippes, Mark Brodrick, and JJ Linn.

### Administrative (Time and documentation)

- Your district and free will
  - Life 360 – optional for inspectors unless directed to install
  - 8 hour day
- **Consistency is so important**
  - DOT sites
  - Brock – CSA/US listing require warning label adhered to boxes
  - In general
- Alternative work schedules – inform JJ if you wish to change or view
- Overtime – request approval from JJ prior to utilizing overtime
- Charge for your time and document it – All inspectors will be required to input time on permits to justify day. Utilize your personal permit when to document time of ½ hour or more is not documented on another permit.
- Additional fees due to time constraints
  - Document your time (we can handle the billing side in the office)
    - Reports
    - Additional time due to travel/poor directions
    - Do not inspect unless fees are paid.
- Administrative Fees – Recuperate cost
- You may adjust the estimated units on permits within reason
- Do not put green stickers on installations that are not compliant – FV, FS, FT, HO wiring under an EC permit, and equipment designated as machinery.
- FS any residential installation that is illegally wired. No green sticker.
- Really need to instruct the owners to call for an inspection when you talk to them the first time – then move out follow up date. Inspector is to set and keep current. It is the inspector's choice on what to set at and his/her responsibility to review.
- If installer/owner calls back after DT, inform them they are required to call for inspection or extend permit if not done. Document in system. Set follow up date accordingly.
- Write reports
  - You put violation code and we will create report
  - Document your time writing reports

- Reports – Code requires or actual Code Section.
- Please document receipt on reports tab for both IR and CO when notification for corrections is received for CO.
- SB on FTs – Inspectors see on average approximately 5 per year.
- Blue sticker
  - Does not give permission to cover
  - Is put on at time of inspection whether corrections or not
  - Have been requested by industry to write ok or corrections on sticker
- Everyone is to have a personal permit. Create by 11/13/17.
- On personal permit, input all inspections and documentation with an FC. Put RI in remarks. Time in personal permit will document in your summary. RI would be documented on permit with 0 units yet time would be documented in remarks.
- Do not issue COs on HO permits
  - FV before IR expires - No CO. New IR will be created for HOs.
- Notification on permits not in your district – Please inform appropriate inspector.
- Three year old permits down to 1 year – for now let's shoot for 2 years. Please finalize permits that are outstanding longer than two years. Move the follow up date, inform installers of their duties, and document that you have control of the permit and document spiel in remarks.
- Remit HO permits to office
- Don't inspect without a permit
- Administrative fee for failure to notify:
  - Use fee when no notification on old permit
  - Use fee when someone needs an inspection immediately
- Installations with violations which do not have to do with current permit
  - Commercial – document in report
  - Residential – report for installation only with a notice provided. Green sticker with installation only.
- Who owns the permit – Owner of the property. In my opinion you are reporting on the property and not the installer.
- Listing or unlisted equipment – New and moved
- HUD structures which have been modified require a permit and compliance with NEC.
- Modular entering the State requires permit
- Poor address – you may input as DT and input address in remarks if you wish for the office to investigate.
- Only energize permitted or listed structures/equipment
- Sheds
- 3<sup>rd</sup> party reciprocity approved with Nebraska on a commercial and residential level.
- Review inspection documentation
  - When to use FS or FV – See inspectors manual
  - P – Use when you went for a RI or Final and couldn't do one.
  - RI or IR – Use RI when no IR if it is a RI. Don't use RI if one was not conducted.
  - DO

- Do not FV or FT a commercial or non-owner occupied installation.
- How to FV, IR, CO a HO permit
  - Should we drive to permits when there is no notice that they are ready
  - Analyze cost and collect before final
  - How far out should you set the IR and the follow up date.
- Inspection Documentation – Inspector Manual
  - P, RI, F, IR, RI, CO, DO, HT, FC
- IPhone
  - Merge Calls
  - Check email
  - Forward voicemails
  - 3 way calls
  - Other??
- Add a monitor to your computer – HDMI cord on tv
- Kearney feedback
- Lighting retrofits – JJ
- Working on signs – maintenance vs new sign vs retrofit – Brent
  - All installers are required to be licensed, permits issued and units listed. In addition retrofit kits are required to be listed.
- Sleep mode and wireless mouse – JJ

## Code Guidance

The following are provided as a courtesy because they are commonly referenced electrical wiring codes from South Dakota Codified Law (SDCL) and National Electrical Codes.

- ~~100 Definitions Wiring methods in a cooler/freezer. A freezer can be considered a damp location and a refrigerated cooler can be considered a damp location.~~
- 210.52 & 20:44:22:23 If the back of a cabinet(s) is butted up to a studded wall, it is not considered an island or peninsula. Therefore the requirements in 210.52 pertain. (Note: recommend to install a circuit to be available for future utilization where not required.)
- 210.8 GFCI and AFCI receptacles in cabinets are considered readily acceptable unless behind an appliance.
- 210.8 A 10 - Guidance is to treat washing machine like a sink in a laundry area.
- 210.8 A 10 - Guidance is a cabinet is not considered a door, doorway or window.
- 210.12, Art. 100 and 90.4 - Specialty resort installations containing the 4 elements of a dwelling unit will be required to utilize AFCIs. (Permanent provisions for living, sleeping, cooking and sanitation).
- 210.12 A - AFCI is not required for 120V furnace circuit.
- 210.12 A - Outlets or devices which would include switches are required to be AFCI protected.
- 7 and under rooms
- 250.52 UFFER Ground - required to be connected to foundation or footing.

- 445.13 - The exception clarifies generators with breakers can be derated at 100 percent.
- 680.42 C The 2017 NEC now allows NM cable to be installed between the service panel and the breakers disconnect for the outdoor hot tub.
- 702.4B2 - Utilize this article when sizing a generator utilizing an automatic transfer switch.
- Shunt trip breakers for "Machine Roomless" passenger elevators may be located in the elevator or in the building machine room

## Common Violations

- Wiring Bulletin - Grounding electrode conductor must terminate at the neutral bar in the service.
- NEC 110.24 requires service equipment in other than dwelling units to have the available fault current labeled. The label shall have the date the calculation was figured and shall be able to withstand the environment involved.
- Size over current protection per name plate on equipment. Example air conditioner.
- NEC 406 Install weather resistant receptacles.
- NEC 408.4 - Labeling breakers

## Changing Services

- Current service locations are not grandfathered
- 110.26 – Access and working space shall be provided and maintained about all electrical equipment to permit ready and safe operation and maintenance of equipment.
- 210.12 If circuits are modified, replaced or extended over six feet, AFCI protection is required.
- S.D. Wiring Bulletin - Service conductors extending over five feet in a building could be run in rigid metal conduit up to 15 feet.
- 240.24(f) Services cannot be located in stairways, bathrooms, clothes closets, etc.

## Equipment Designated as Machinery

The following rule was updated for the rules which were implemented 7/1/17:

*20:44:22:05. Special approval of state electrical inspector. The state electrical inspector may grant special approval of electrical equipment as machinery if no standard has been prepared or adopted to which they should conform. Special approval applies only to the specific electrical equipment approved and not to the line as manufactured, stored, sold, installed, or attached and may be granted only for electrical equipment as designated by the owner as machinery which, in the opinion of the owner, is safe for the use intended. All special approvals must first be authorized by the commission.*

*The state or any of its political subdivisions does not assume any liability for damage or injury to persons or property because of the use of such electrical equipment designated as machinery.*

Office procedures for Equipment designated as Machinery:

1. Owner of equipment sends letter to Commission designating equipment as machinery and accepts in the designation letter all responsibility for notifying employees and patrons of dangers associated with equipment.
2. Commission analyzes designation:
  - a. Equipment is not available in listed form
  - b. Equipment is not mass produced
  - c. Equipment is located in a controlled environment
3. Commission accepts/declines designation.
4. Commission installs a yellow sticker and documents the permit with a final subject.

Note: Approval of designation does not require board action unless Commission/Executive Director request action.

South Dakota Electrical Commission  
John J. Linn, Jr.  
308 S. Pierre St.  
Pierre, SD 57501

Subject:

Dear Mr. Linn,

Please accept this letter as official notice that Organization is designating the following equipment at the Location as machinery and is accepting responsibility and liability for said equipment:

- Description of machinery

Organization acknowledges that the described machinery may not be code compliant, and has taken the following mitigation steps to ensure personnel and system safety:

A copy of this letter and your response of acknowledgement will be kept on file at Organization and provided to inspectors as appropriate for their use. Organization asserts that it is a maintained facility with controlled access and understands and accepts the responsibility to notify individuals accessing this facility of any non-compliant system components or other electrical hazards which may exist.

Sincerely,

## Commercial Installations on Homeowner Occupied Property

The Executive Director is seeking guidance regarding when to consider an installation commercial. A commercial installations would require compliance or would result in a disconnect order. Residential installations may elect non-compliance with a Final Subject or may receive a Final Tag/Void.

### Examples:

Mechanic garage/body shop at residence.

Livestock operation with/without nonfamily employees.

Agricultural processing plant on residence.

### Potential factors:

Service size

Number of nonfamily employees.

Product produced/processed.

## DISCONNECT ORDERS

The following is the body of an email to Tim McIntyre from JJ Linn in regards to the guidelines for issuing or not issuing a Disconnect Order:

Tim,

Attached please find a guideline the Commission utilizes when issuing reports and deciding whether to send a Disconnect Order or not:

Inspection conducted by Electrical Commission

Violation: Inspector Report issued with expiration date.

Expiration of Inspector Report: Correction Order issued with expiration date.

Expiration of Correction Order: Analysis done by Commission:

    Residential Installation: Final Void.

    Commercial Installation: Analysis done by Commission

        Property Protection violation: Alert owner and installer with Final Void

        Life Safety violation: Issue a Disconnect Order

At this time it is the Commission's policy to inform the utility of any life safety violation in which the process has resulted in a Disconnect Order. Per your recommendation on 9/15/17, the Disconnect Order will include a copy of the Correction Order to the respective utility detailing the violations.

The Commission does feel the utility will be informed by a letter or a Disconnect Order when a Commercial installation is not in compliance with Code in a timely manner. The Commission also is of the opinion the Disconnect Order is a more valuable document for the utility than a general letter informing the utility of the violation.

Please let me know if you have any questions or comments. Thank you. JJ

Executive Director Linn was requested to meet with the utilities at a meeting in Pierre on the first week in February to discuss disconnect orders.

Please note:

The Commission is issuing Disconnect Orders for commercial installations which do not respond to the first door tag.

The Commission is not issuing notification to the utilities for residential non-compliance.

An example of a Disconnect Order is on the following three pages.

STATE OF SOUTH DAKOTA  
DEPARTMENT OF LABOR AND REGULATION  
STATE ELECTRICAL COMMISSION

IN THE MATTER OF:

DISCONNECT ORDER

Owner  
Address  
Permit #

(Pursuant to SDCL 36-16-31)

On or about DATE, an inspector for the South Dakota State Electrical Commission issued an inspection report which found the installation to not be in compliance with South Dakota law, South Dakota administrative rules, and the National Electrical Code. The inspection report contained remedial steps, which you were obligated to comply with.

On or about DATE, a re-inspection occurred of your installation. The inspector found that you have failed to comply with the remedial steps required of you from the initial inspection. On such date an inspector for the South Dakota State Electrical Commission issued a correction order which found the installation to not be in compliance with South Dakota law, South Dakota administrative rules, and the National Electrical Code.

To date, you have failed to comply with the remedial steps required of you to ensure the installation complies with South Dakota law, South Dakota administrative rules, and the National Electrical Code. Therefore, it has been determined that your installation is hazardous to life and property, and pursuant to SDCL 36-16-31 and ARSD 20:44:19:05, it is hereby

ORDERED that services shall be disconnected DATE day of MONTH, 2018 at TIME P.M. MST at the following location:

**Location**

NOTICE: This is a disconnection order of the South Dakota Department of Labor and Regulation, State Electrical Commission. Pursuant to SDCL 36-16-31, you are hereby advised of the right to appeal this final order to the State Electrical Commission within **30 days** of receiving this order. You would then have the right to appeal the decision of the State Electrical Commission to circuit court pursuant to the authority of SDCL chapter 1-26. In addition, pursuant to SDCL chapter 1-26, a circuit court decision in this matter may be appealed to the South Dakota Supreme Court in the matter provided by law.

Dated this DATE day of MONTH, 2018.
