Notes: SOC - Standard Occupational Classification System
[Click here for descriptions of SOC occupations by code.](#)

The South Dakota Balance of State Area includes the South Dakota counties of Aurora, Beadle, Bennett, Bon Homme, Brookings, Brown, Brule, Buffalo, Butte, Campbell, Charles Mix, Clark, Clay, Codington, Corson, Davison, Day, Deuel, Dewey, Douglas, Edmunds, Fall River, Faulk, Grant, Gregory, Haakon, Hamlin, Hand, Hanson, Harding, Hughes, Hutchinson, Hyde, Jackson, Jerauld, Jones, Kingsbury, Lake, Lawrence, Lyman, Marshall, McPherson, Mellette, Miner, Moody, Oglala Lakota, Perkins, Potter, Roberts, Sanborn, Spink, Stanley, Sully, Todd, Tripp, Union, Walworth, Yankton and Ziebach.

Data is preliminary and subject to revision.

Data for occupations with fewer than 30 workers in 2022 not included.

Data presented for occupations will not sum to totals due to rounding and non-publishable data for additional occupations included in totals. Demand data is the summation of job openings estimated due to projected employment growth and job openings projected to be created due to the separation of current workers. Separation of workers is estimated by multiplying occupational employment estimates by national separation rates supplied by the U.S. Bureau of Labor Statistics (BLS). These rates estimate the number of job openings, by occupation, which will be attributed to workers exiting, transferring and changing occupations all together. Average annual demand data are calculated by dividing by ten, the number of years in the projection period.

For more information, see https://dlr.sd.gov/lmic/projections_technical_notes.aspx

Notes:

SOC - Standard Occupational Classification System

[Click here for descriptions of SOC occupations by code.](#)

The South Dakota Rapid City MSA includes the South Dakota counties of Custer, Meade and Pennington.

Data is preliminary and subject to revision.

Data for occupations with fewer than 30 workers in 2022 not included.

Data presented for occupations will not sum to totals due to rounding and non-publishable data for additional occupations included in totals. Demand data is the summation of job openings estimated due to projected employment growth and job openings projected to be created due to the separation of current workers. Separation of workers is estimated by multiplying occupational employment estimates by national separation rates supplied by the U.S. Bureau of Labor Statistics (BLS). These rates estimate the number of job openings, by occupation, which will be attributed to workers exiting, transferring and changing occupations all together. Average annual demand data are calculated by dividing by ten, the number of years in the projection period.

53-7065	Stockers and Order Fillers	3,382	3,857	475	14.0%	225	354	48	627
53-7072	Pump Operators, Except Wellhead Pumpers	49	64	15	30.6%	2	4	2	8
53-7081	Refuse and Recyclable Material Collectors	118	128	10	8.5%	6	9	1	16

Notes: SOC - Standard Occupational Classification System

[Click here for descriptions of SOC occupations by code.](#)

The South Dakota Sioux Falls MSA includes the South Dakota counties of Lincoln, McCook, Minnehaha and Turner.

Data is preliminary and subject to revision.

Data for occupations with fewer than 30 workers in 2022 not included.

Data presented for occupations will not sum to totals due to rounding and non-publishable data for additional occupations included in totals. Demand data is the summation of job openings estimated due to projected employment growth and job openings projected to be created due to the separation of current workers. Separation of workers is estimated by multiplying occupational employment estimates by national separation rates supplied by the U.S. Bureau of Labor Statistics (BLS). These rates estimate the number of job openings, by occupation, which will be attributed to workers exiting, transferring and changing occupations all together. Average annual demand data are calculated by dividing by ten, the number of years in the projection period.
