## Clinical Laboratory Technologists and Technicians

*Standard Occupational Codes 29-2010, 29-2011, 29-2012*

### What They Do

Clinical laboratory technologists (commonly known as medical laboratory scientists) and clinical laboratory technicians collect samples and perform tests to analyze body fluids, tissue and other substances. They perform complex medical laboratory tests to diagnose, recommend treatment for and prevent disease.

### Is This For You?

**Work Interests** are described in the following categories (compatible with Holland's Model). People who tend to succeed in this career are:

**Investigative (Thinkers)** — Interested in science and logic. They like to analyze, evaluate and solve problems, and enjoy learning and understanding the causes of events.

**Realistic (Doers)** — Prefer to work with objects, things, machines, tools, plants or animals. They have mechanical ability, enjoy being outdoors and working with their hands.

**Work Values** are aspects of work that are satisfying to you. The following work values are generally associated with this career.

**Support** — Offer supportive management that stands behind employees.

**Independence** — Allow employees to work on their own and make decisions.

**Achievement** — Results oriented, allow use of strongest abilities and provide feeling of accomplishment.

**Abilities** reflect a person's aptitude to acquire skills and knowledge. The following abilities are important for success in the career.

- Near Vision
