Cutting and Slicing Machine Setters, Operators and Tenders

What They Do
Set up, operate or tend machines that cut or slice materials, such as glass, stone, cork, rubber, tobacco, food, paper or insulating material.

Is This For You?
Work Interests are described in the following categories (compatible with Holland’s Model). People who tend to succeed in this career are:

Realistic (Doers) — Prefer to work with objects, things, machines, tools, plants or animals. They have mechanical ability, enjoy being outdoors and working with their hands.

Conventional (Organizers) — Detail oriented and organized. They like to analyze data, keep financial records and do research. They can be counted on to be accurate and enjoy structure and closure.

Work Values are aspects of work that are satisfying to you. The following work values are generally associated with this career.

Support — Offer supportive management that stands behind employees.

Independence — Allow employees to work on their own and make decisions.

Relationships — Allow employees to provide service to others and work with co-workers in a friendly, non-competitive environment.

Abilities reflect a person’s aptitude to acquire skills and knowledge. The following abilities are important for success in the career.

- Control Precision
- Finger Dexterity
- Near Vision
- Arm-Hand Steadiness
- Manual Dexterity
- Problem Sensitivity
- Multi-limb Coordination
Basic Skills You Need

- Operation Monitoring
- Operation and Control
- Quality Control Analysis
- Monitoring
- Reading Comprehension
- Coordination
- Critical Thinking
- Equipment Maintenance
- Troubleshooting

Education & Training

A high school diploma or equivalent is the minimum education recommended for cutting and slicing machine setters, operators and tenders. Most training for specific work tasks is done on the job. Prior work experience in a production facility is helpful.
