High Demand & High Wage Career

Career Cluster: Health Science

Dental Assistants

What They Do

Dental assistants provide patient care, take x rays, keep records and schedule appointments. They provide assistance to dentists and dental hygienists as needed. For example, they prepare patients for treatment, sterilize or disinfect instruments, set up instrument trays or assist dentist during dental procedures.

Is This For You?

Work Interests are described in the following categories (compatible with Holland's Model). People who tend to succeed in this career are:

Conventional (Organizers) —Detail oriented and organized. They like to analyze data, keep financial records and do research. They can be counted on to be accurate and enjoy structure and closure.

Realistic (Doers) — Prefer to work with objects, things, machines, tools, plants or animals. They have mechanical ability, enjoy being outdoors and working with their hands.

Standard Occupational Codes 31-9091
