Farm Equipment Mechanics & Service Technicians

What They Do
Diagnose, adjust, repair or overhaul farm machinery and vehicles, such as tractors, harvesters, dairy equipment and irrigation systems.

Is This For You?
Work Interests are described in the following categories (compatible with Holland’s Model). People who tend to succeed in this career are:

Realistic (Doers) — Prefer to work with objects, things, machines, tools, plants or animals. They have mechanical ability, enjoy being outdoors and working with their hands.

Conventional (Organizers) — Detail oriented and organized. They like to analyze data, keep financial records and do research. They can be counted on to be accurate and enjoy structure and closure.

Work Values are aspects of work that are satisfying to you. The following work values are generally associated with this career.

Support — Occupations that satisfy this work value offer supportive management that stands behind employees.

Independence — Allow employees to work on their own and make decisions.

Achievement — Results oriented, allow use of strongest abilities and provide feeling of accomplishment.

Abilities reflect a person’s aptitude to acquire skills and knowledge. The following abilities are important for success in the career:

- Control Precision
- Manual Dexterity
- Multilimb Coordination
- Finger Dexterity
- Arm-Hand Steadiness
- Near Vision
Basic Skills You Need

- Equipment Maintenance
- Repairing
- Troubleshooting
- Operation & Control
- Critical Thinking
- Operation Monitoring
- Quality Control Analysis

Education & Training

Some postsecondary education in an appropriate mechanized agriculture, agricultural technology or a related field is recommended. Demonstrated ability in maintenance and repair of agricultural equipment is the most important qualification.
