High Demand & High Wage Career

Career Cluster: Manufacturing

Industrial Machinery Mechanics

Standard Occupational Code 49-9041

What They Do

Install, adjust, maintain and repair factory equipment and other industrial machinery, such as conveying systems, production machinery and packaging equipment.

Is This For You?

Work Interests are described in the following categories (compatible with Holland's Model). People who tend to succeed in this career are:

Realistic (Doers) - prefer to work with objects, things, machines, tools, plants or animals. They have mechanical ability, enjoy being outdoors and working with their hands.

Investigative (Thinkers) - interested in science and logic. They like to analyze, evaluate and solve problems, and enjoy learning and understanding the causes of events.

Work Values are aspects of work that are satisfying to you. The following work values are generally associated with this career.

Support — Offer supportive management that stands behind employees.

Independence — Allow employees to work on their own and make decisions.

Working Conditions — Offer job security and good working conditions.

Abilities reflect a person's aptitude to acquire skills and knowledge. The following abilities are important for success in the career.

- Control Precision
- Finger Dexterity
- Manual Dexterity
- Near Vision
- Problem Sensitivity
- Arm-Hand Steadiness

Basic Skills You Need

- Equipment Maintenance
- Operation and Control
- Operations Monitoring
- Repairing
- Troubleshooting

Education & Training

Some postsecondary education in an appropriate mechanics program is recommended. Without that education, job seekers need on-the-job experience to be competitive. Demonstrated skill is the most important qualification.

Recommended Levels* for the National Career Readiness Certificate

Applied Math	4
Workplace Documents	4
Graphic Literacy	4

*Using the median skill level.

Where They Work
