December 6, 2017

South Dakota Department of Labor and Regulation  
Attn: Workforce Training  
123 W. Missouri Ave.  
Pierre, SD 57501

Dear Sir or Madam:

This letter is being issued in accordance with the Worker Adjustment and Retraining Notification Act (WARN).

Due to current market conditions and proposed revisions to tax policies affecting the wind industry, Molded Fiber Glass Companies/South Dakota (“MFG”) is permanently closing its facility located at 1401 Brown County #19 North, Aberdeen, SD 57401, effective February 15, 2018. This will result in the permanent layoff of approximately 409 employees. Attached is a listing of the job titles of positions to be affected.

Over the last few months, MFG has been actively looking for new customers or a company interested in purchasing the operation. Unfortunately, we have been unable to identify any immediate opportunities.

MFG is not part of a union. All affected employees have been notified. Bumping rights do not exist.

Please contact me at (605) 725-9463 for further information.

Sincerely,

David Giovannini  
Senior VP/General Manager
